## **WELCOME TO YOUR STUDENT HEALTH & DENTAL PLANS**

Dear Student,

Welcome to your students' union health and dental plan.

Students here at the Carleton University Students' Association have come together to contribute to health and dental plans that provide benefits to us all.

Your health and dental plans have been democratically established by the members of your student union through referenda. Every year, your elected representatives and staff work to negotiate the best value possible. Students who already have coverage are allowed to withdraw from the plan, so that this service can be focused on those who need it.

Your health and dental plans are services of your students' union, underwritten by Green Shield Canada, the only national non-profit benefits provider in the country, so you can be assured that students' interests are the only priority.

In creating universal health and dental plans, Carleton University Students' Association students have recognized that when we work together, we can save money and provide important services. If any individual student were to seek private and independent health coverage, the cost would be too great and the benefits too limited. However, by pooling our resources, we are able to realize incredible savings and service enhancements through economies of scale.

These benefits plans represent much more! In deciding to offer ourselves health and dental protection, students are working to ensure that no student suffers academically or has to drop out of school because of unexpected and unmanageable health related costs. Some students with chronic illnesses would never be able to see the inside of a classroom without access to affordable treatment and therapies.

That is why it is important to work collectively to provide protection for each other in the most cost-effective way possible. While we hope that this year will be worry free, if your health does falter, we are glad that your health and dental plans will be there to support you. Many of your plan benefits support health promotion and illness prevention, such as annual dental cleaning and maintenance medication. Being proactive about your health and dental needs is as much a worthwhile investment in your future as your education.

This year, please get familiar with the coverage detailed in this brochure and take advantage of the benefits provided by your students' union health and dental plans. After all, we can all benefit from having the peace of mind this coverage brings.

If you have any questions or suggestions, there is a team of people waiting to assist you.

Have a healthy and successful year!

Your Carleton University Students' Association Executive

Features of this great value-added service and how it works:

1. This national program includes more than 300 dentists from coast to coast.
2. Once a dental provider elects to participate in the network, they are added to a list of Green Shield's participating dental providers. This list is currently available at [greenshield.ca/StudentCentre](http://greenshield.ca/StudentCentre).
3. You may visit a dentist from the list of participating dental providers, or you may ask your existing dentist to join this network; the advantage to your dentist of joining the network is the potential of an increase in business. Your dentist can call our Customer Service Centre at 1.888.711.1119 for more information.
4. The discount offer applies to most dental procedures and *may* be up to 30%.
5. Our system will automatically calculate the applicable discount when you visit a dental provider in this network. The applicable discount is dependent on your particular college or university's plan design, and will be subtracted from your co-pay, or share of the cost.
6. Eligible dental claims are processed electronically – Green Shield will pay your dentist directly; you just have to pay the dentist your share of the cost (if any) for services provided.
7. You will receive professional dental services and maintain ongoing oral health, while incurring lower out-of-pocket expenses.
